Certified Facility Manager (CFM)

Course code: PQ309 From: 23-11-2026 Venue: London - Course Fees: 5000 £

Introduction

Facility Management (FM) has become a critical discipline in today's complex built environment, integrating people, place, process, and technology to ensure the functionality, comfort, safety, and efficiency of facilities. The Certified Facility Manager (CFM) credential, awarded by the International Facility Management Association (IFMA), is recognized globally as the gold standard for competence in FM.

This intensive training program is designed to comprehensively prepare participants for the CFM exam by covering all 11 core competency areas required by IFMA, including operations, project management, finance, environmental stewardship, real estate, and more.

Through interactive lectures, real-world case studies, practical exercises, and mock exams, participants will gain deep insight into not only passing the CFM exam but also becoming strategic leaders in their organizations. The program fosters both technical and managerial skills essential for facility professionals working across industries such as healthcare, education, oil & gas, corporate offices, and government agencies.

Course Objectives of Certified Facility Manager

Upon completing this program, participants will be able to:

- Understand and apply the 11 core competencies outlined by IFMA for CFM certification.
- Develop strategies for effective facilities planning, operations, and performance management.
- Analyze financial documents, prepare budgets, and manage capital projects.
- Interpret and apply contracts, regulations, and legal compliance standards.
- Incorporate sustainability practices into facilities management.
- Lead and coordinate teams, vendors, and stakeholders effectively.
- Confidently sit for the CFM exam with solid preparation and test-taking strategies.

Course Methodology of Certified Facility Manager

- Lectures and Expert Insights: Leading industry experts will share their insights and best practices.
- Case Studies: Analyze real-world talent acquisition challenges and solutions.
- Group Discussions: Engage in meaningful discussions and share experiences with peers.
- Role-Playing and Simulations: Practice recruitment scenarios to enhance skills.
- Hands-on Workshops: Gain practical experience in using recruitment tools and techniques.

Organizational Impact of Certified Facility Manager

This training program will have a positive impact on organizations by:

- Enhances organizational efficiency through optimized facility operations.
- Supports cost savings via better asset management and energy practices.
- Reduces risks by improving legal compliance, safety, and contract administration.
- Builds in-house leadership in FM, reducing reliance on external consultants.
- Strengthens the organization's credibility by having certified FM professionals.
- Increases the lifespan of facilities and infrastructure through proactive maintenance strategies.

Personal Impact of Certified Facility Manager

Participants will experience personal growth and development, including:

- Recognized credential that boosts career advancement and industry credibility.
- Equips professionals with cross-functional knowledge needed in senior FM roles.
- Improves decision-making capabilities through deeper understanding of operations and finance.
- Strengthens leadership, strategic thinking, and negotiation skills.
- Provides a solid foundation to take and pass the CFM certification exam confidently.

Who Should Attend

This training program is ideal for:

- Facility Managers and Coordinators
- Operations and Maintenance Managers
- Engineers and Architects transitioning into FM
- Project Managers in construction and infrastructure
- Real Estate and Property Managers
- Procurement and Contracting Officers
- Professionals preparing for the IFMA CFM Exam
