Commissioning & Start-Up with API RP 1FSC Foundation

Course code: PQ134 From: 04-05-2026 Venue: Singapore - Course Fees: 5250 £

Introduction

This Commissioning & Start-Up with API RP 1FSC Foundation Training Course will show you how to succeed during the project's defining phase.

Did you know that, in the eyes of an investor, the Commissioning & Start-Up (CSU) phase determines whether a project is a success or a failure?

When a project is fully commissioned and operational, it is likely that it will be a financial success, with investors receiving their anticipated returns.

It is highly unlikely that a project will ever be financially successful if it has not been fully commissioned and started-up. The project could be a disaster from the standpoint of an investor.

Why don't more project managers who have a few years of experience already know this?

It could be due to a lack of training and education to develop essential skills and knowledge, which still exists for several Operators and Contractors... for the time being.

This training course answers crucially important questions and can highlight:

- What is Commissioning?
- What is Systems Completion?
- When and the way should Construction transition from Areas to Systems?
- How should I perform as a Commissioning & Start-Up (CSU) team member or stakeholder?
- What does project Success or project Failure look like?
- What are the Critical Success Factors for Commissioning & Start-Up?
