Public Sector Accounting and Budgeting

Course code: FB45 From: 23-03-2026 Venue: Casablanca - Course Fees: 3600 £

Introduction

This cutting-edge training course is designed to provide comprehensive guidance on the important principles and key roles in the ever-expanding field of public sector finance. Non-financial public sector employees and supervisors are frequently asked to provide feedback on estimates and respond to information presented in departmental financial records.

This course will serve as an excellent introduction for non-financial managers as well as a valuable refresher and update for finance professionals working in the public sector. The training course also includes an important update on International Public Sector Accounting Standards Board (IPSASB) standards, as well as current advancements in the field of New Public Management, with a particular emphasis on the reasons for and requests for New Public Financial Management.

This training course will highlight:

- The circumstances for public sector financial decision-making
- The notable characteristics of public sector financial statements
- Dissolving and understanding public sector financial records
- The aims and methodology of public sector budgeting
- Capital property evaluation and outsourcing arrangements
- Public-Private Partnerships (PPP) and Private Finance Initiatives (PFI)
- Public sector management reformations

Course Objectives of Public Sector Accounting and Budgeting

The training course has been designed to provide you with up-to-date knowledge and practical skills in the preparation and interpretation of public sector financial statements and budgets.

By the end of this training course, you will have acquired to:

- Recognize the function of financial accounting in public sector management
- Provide accounts in accordance with IPSASB framework
- Investigate and interpret public sector financial records
- Utilize forecasting methods to plan for income and investments
- Recognize and actively delegate in the budget method

- Experience apply capital property appraisal techniques

Course Methodology of Public Sector Accounting and Budgeting

The training course will be designed as a deeply participative workshop with formal donations, case studies, and interactive work illustrations. Relevant examples and case studies are provided to illustrate the application of each of the topics covered and opportunities are given to acquire and apply the key financial accounting and budgeting systems using practical illustrations and practices.

Organizational Impact of Public Sector Accounting and Budgeting

The organization will profit from the improvement and practical application of skills in financial accounting and budgeting in agreement with the requirements of the IPSASB structure.

This will give benefits in increased knowledge of key financial principles and developed decision-making.

The organization will specifically benefit from:

- Up to date awareness of the conditions under the IPSASB structure
- Increased level of knowledge of key public sector finance investments
- Improvement of up to date accounting and budgeting methods
- Functional skills in capital investment assessment techniques
- Knowledge of improvements in New Public Management

Personal Impact of Public Sector Accounting and Budgeting

Delegates will profit from refreshed awareness and implemented practical skills in financial accounting and budgeting in the context of public sector organizations.

These skills will provide delegates to make a greater supplement to the budgeting and financial decision-making manners in their organization, at the same time improving their own career improvement potential.

Specific profits from the training course will cover:

- Guidance on the Principles of Financial Accounting and Budgeting
- Awareness of the Key Current IPSASB Accounting Standards
- Improvement of Exceptional Skills in Financial Analysis and Discussion
- Purpose of Practical Skills in Forecasting Income and Costs
- Up to Date Awareness of Public Sector Budgeting Principles and Techniques
- Increased Knowledge of Modern Developments in Public Sector Management

Target Audience of Public Sector Accounting and Budgeting

This training course would be important to all of those required in the formation, presentation, and review of corporate financial statements from both the individual and public sectors where compliance with the IASB and IFRS framework is wanted, both in commercial businesses, government, and not-for-profit organizations.

This training course is fitting for a wide range of experts but will greatly serve:
