Financial, Enterprise Commercial & Retail Business Acumen

Course code: FB412 From: 28-06-2026 Venue: Cairo - InterContinental Cairo Semiramis Course Fees: 3100 £

Introduction

This comprehensive 5-day training course provides participants with a practical understanding of financial management, enterprise operations, commercial business strategies, and retail industry practices. The course is designed to enhance business acumen by combining financial literacy with commercial decision-making and retail operational insights.

Participants will develop the ability to interpret financial information, understand enterprise and retail business models, analyze commercial performance, and contribute effectively to strategic and operational business decisions.

Course Objectives

By the end of this course, participants will be able to:

- Understand core financial and commercial business principles.
- Interpret and analyze financial statements and business performance indicators.
- Understand enterprise and retail business operations and structures.
- Develop commercial awareness and strategic thinking skills.
- Evaluate profitability, costs, pricing, and revenue drivers.
- Understand customer behavior and retail business dynamics.
- Improve business decision-making using financial and operational data.
- Identify business growth opportunities and operational improvements.
